Dear Hiring Manager,

I am writing to express my interest in a senior IT leadership opportunity within your organization. With over 6 years of progressive experience in IT infrastructure, cloud platforms, and cybersecurity, and currently serving as **AGM – Head of IT**, I bring a strong track record of driving enterprise IT transformation, strengthening security frameworks, and leading high-performing teams across Hospitality, Manufacturing, and Corporate environments.

In my current role at Yellowstone Myanmar Pvt Ltd, I lead end-to-end IT operations and strategy across multi-location environments, managing 500+ systems and enterprise infrastructure. I have successfully designed and deployed scalable solutions leveraging VMware, Proxmox, FortiGate, and Zabbix, while improving cybersecurity posture by 40% through robust firewall, VPN, and endpoint security implementations. Additionally, I played a key leadership role in achieving ISO 27001:2022 and ISO 9001:2015 certifications, ensuring alignment with global compliance and governance standards.

Previously, at Hilton Jaipur, I contributed to enhancing guest experience by streamlining IT workflows, improving operational efficiency, and supporting audit compliance. My ability to bridge technology with business outcomes has consistently resulted in improved performance, reduced downtime, and cost optimization.

What excites me about your organization is the opportunity to contribute to large-scale, innovative IT initiatives while leveraging my expertise in infrastructure, cybersecurity, and IT governance to drive measurable business impact. I am particularly passionate about building resilient IT ecosystems that support growth, scalability, and security.

I would welcome the opportunity to discuss how my leadership experience and technical expertise align with your organization's goals.

Additional Note:

I bring diverse industry exposure, having worked across **BPO (Telecommunication), Software Development, Hospitality, Healthcare Manufacturing, and Microfinance sectors**. I have also contributed within large-scale organizations with **5000+ employees**, collaborating closely with senior management and leading large IT teams to deliver enterprise-grade solutions and operational excellence.

Thank you for your time and consideration.
